

Le seguenti schermate si riferiscono ad un **concept puramente dimostrativo** di una webapp che sfruttando le credenziali e le API del PAXSTORE sia in grado di costruire dei report sia tabellari che grafici altamente **personalizzabili**.

Questo tool va inteso come strumento di reportistica e quindi in sola lettura.

La UI va ancora studiata bene, ora è stato fatto un esempio utile solo a far capire il concetto e la UX sulla quale si basa.

PAXALYTICS

Il vantaggio di avere uno strumento simile nel nostro catalogo prodotti è quello di poter far creare **in autonomia al cliente** il tipo di report a lui più funzionale attraverso una UX/UI molto user friendly.

Inoltre **avendo noi l'ownership** della piattaforma abbiamo la possibilità di intervenire sul codice senza passare dalla Cina per richieste prettamente legate alla User Experience e la UI.

Un primo passo verso l'autonomia di gestione dei dati.

START

LOGIN PAGE

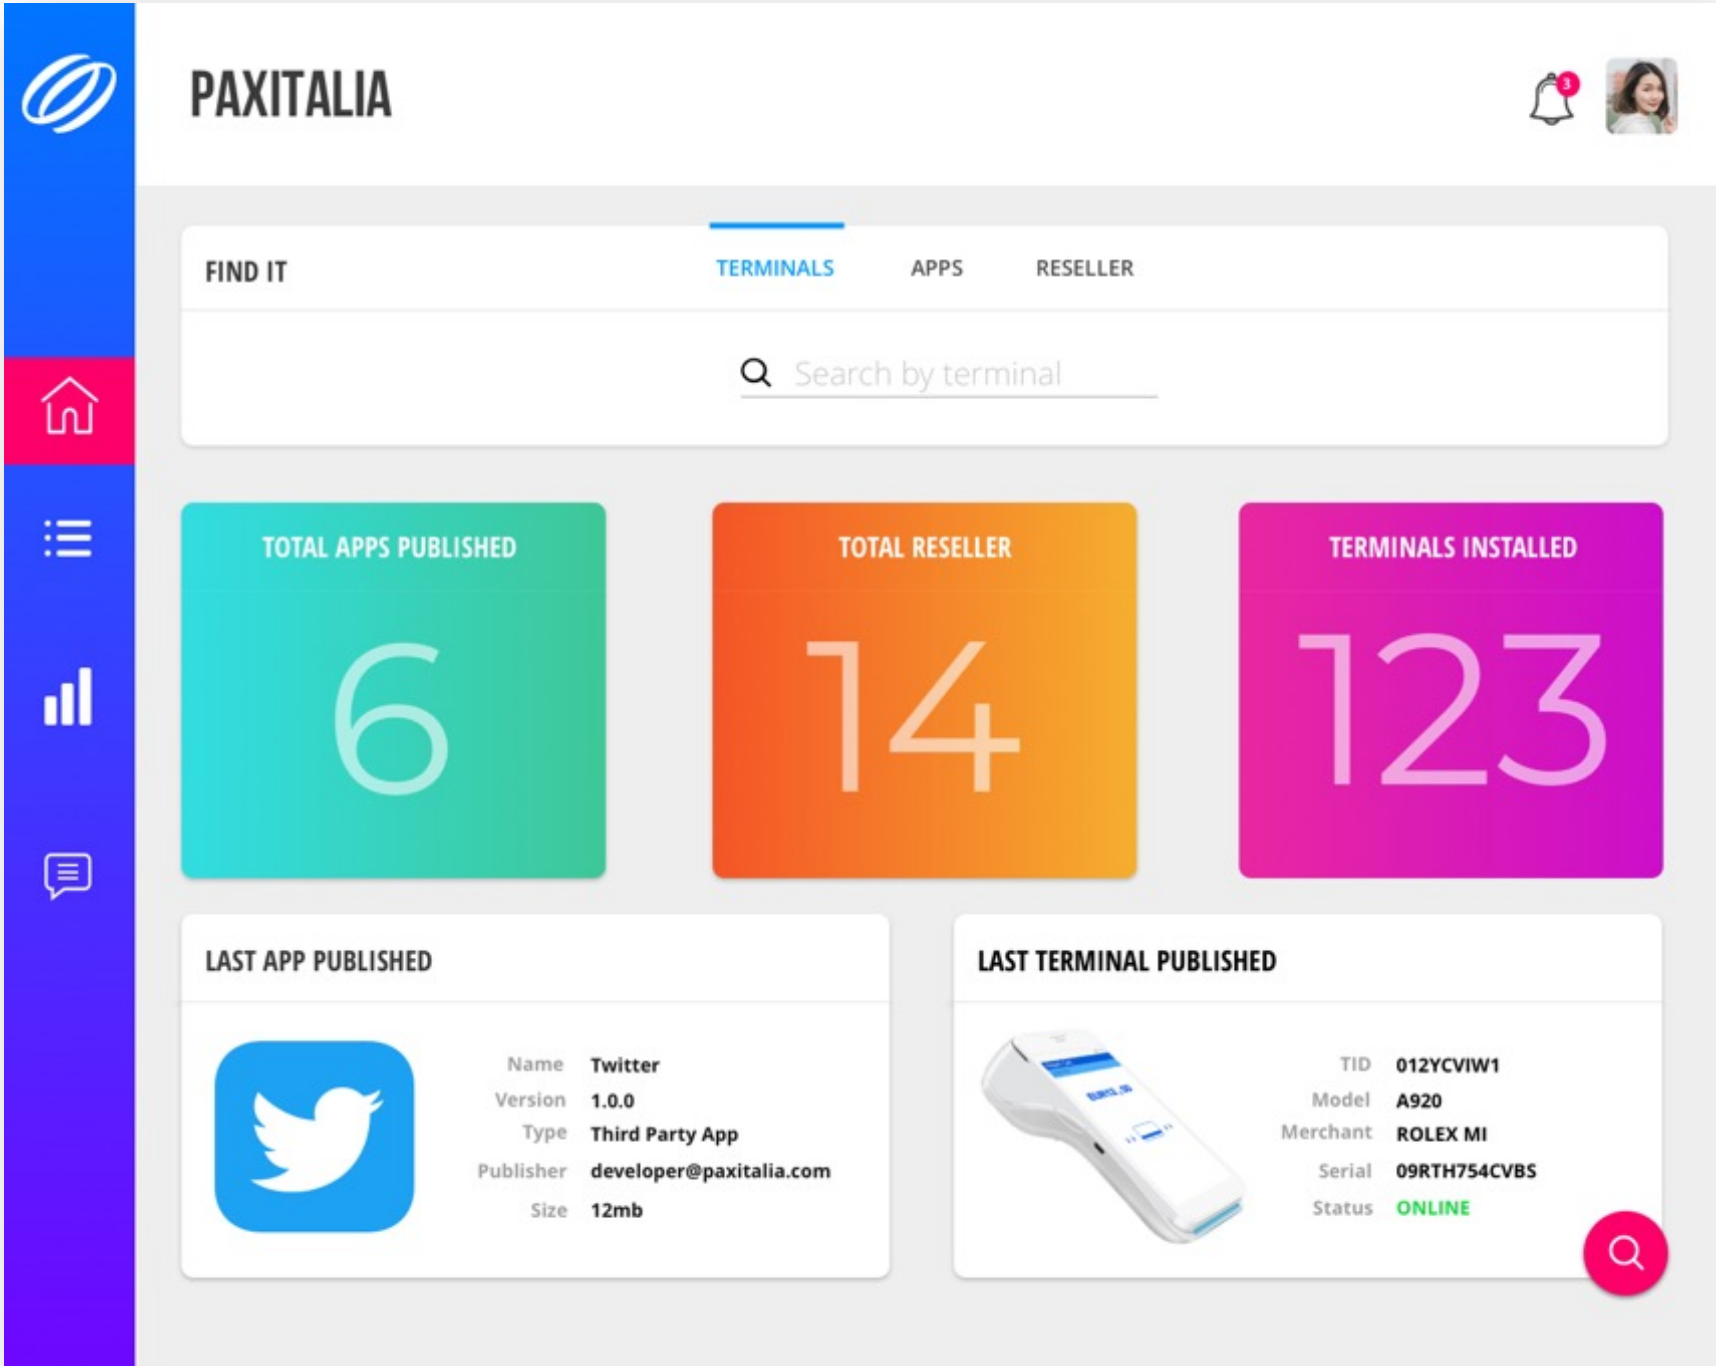

The entire platform are deployed in a webserver provided by PaxItalia.

User and Password are the same of the PAXSTORE account.

DASHBOARD

Dashboard shows all the data needed to provide an immediate overview of the reference store.

SIDEBAR

The sidebar shows 4 buttons that offer quick access to the main functions of our webapp.

REPORTS

Fundamental to create advanced reports based on customer needs.

SUPPORT

Customer support with FAQ and chatbot

DASHBOARD

Show store overview

CHARTS

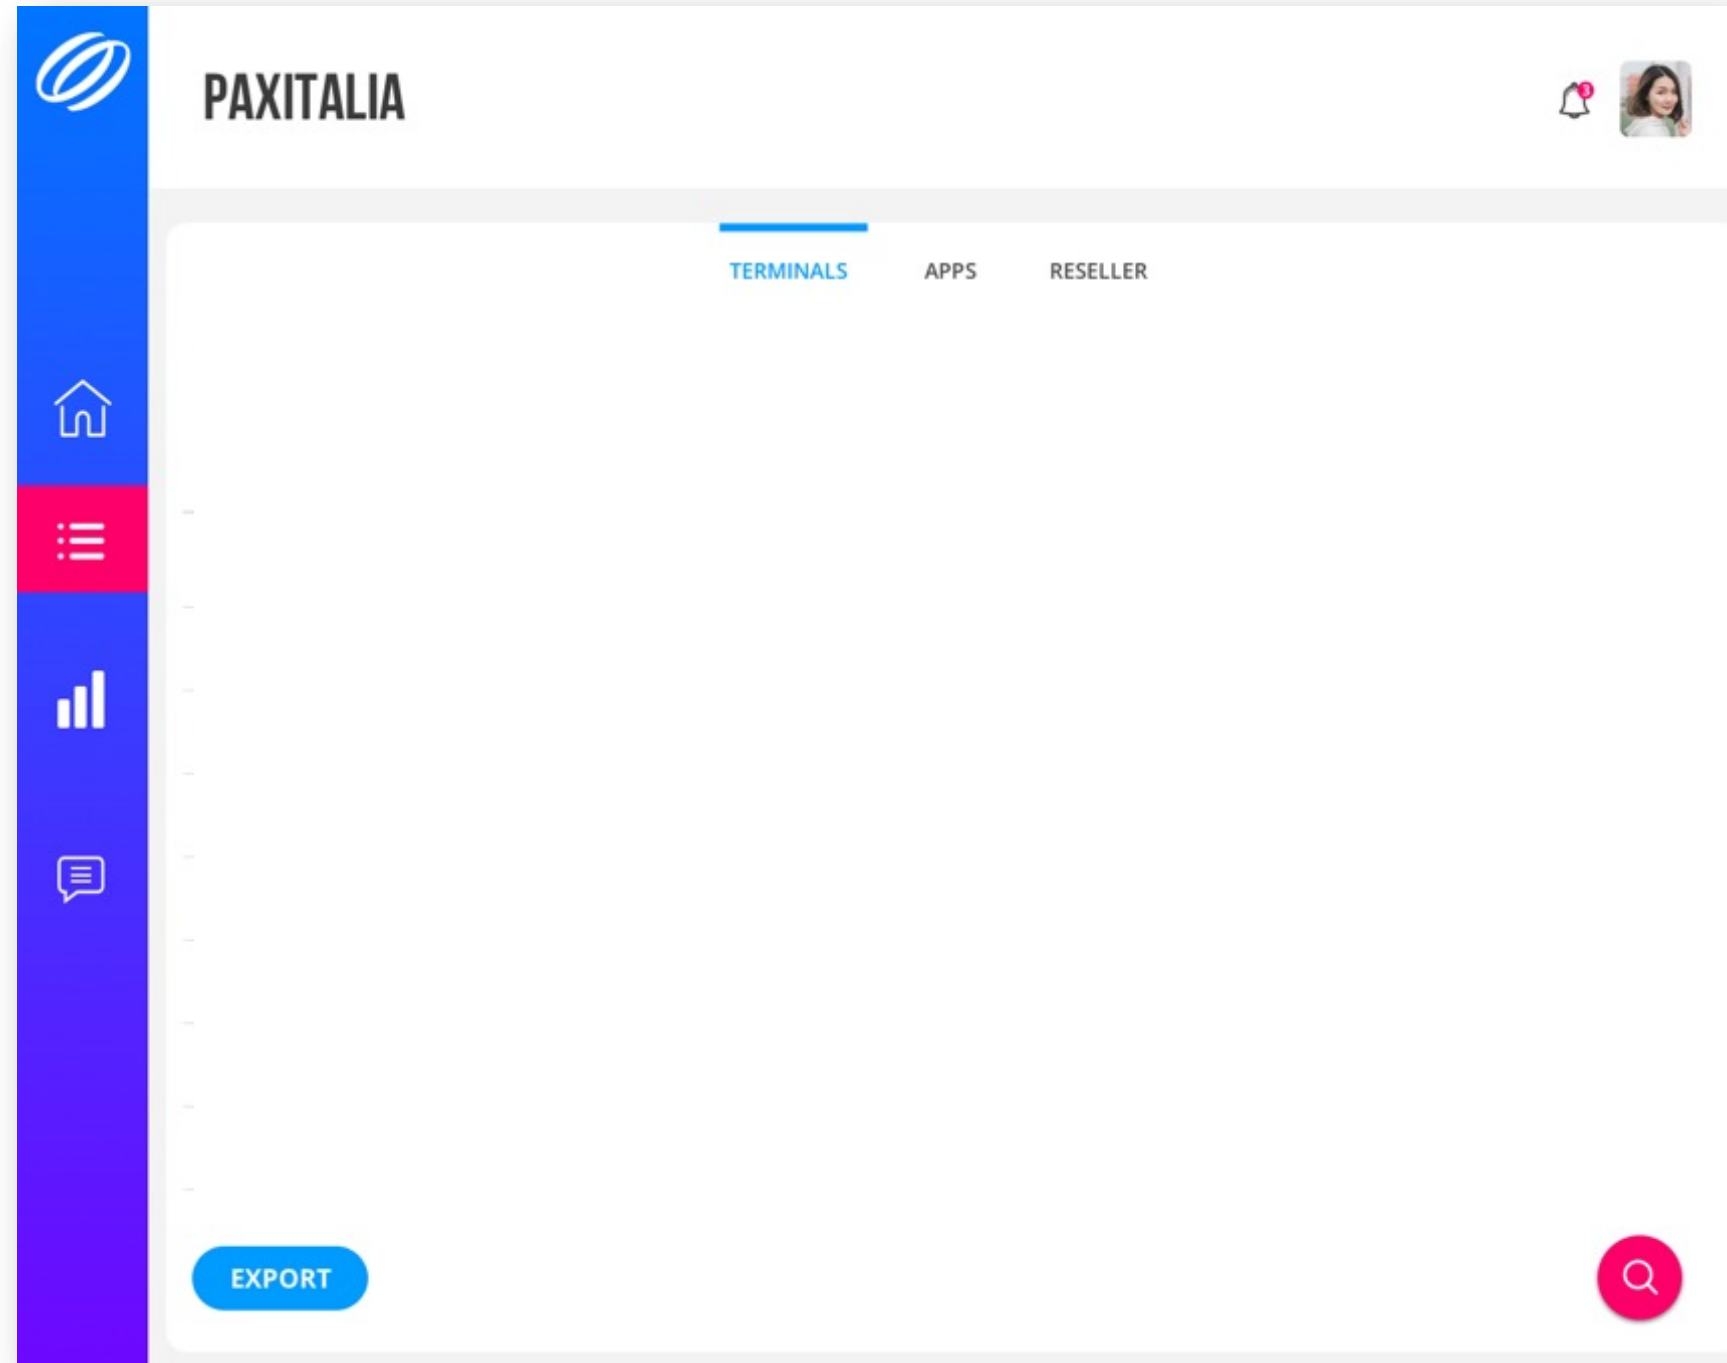

Customizable charts for every customer needs.

REPORTS

The **LIST** section provides the customer with three types of reports categorized by:

TERMINALS
APPS
RESELLER

REPORTS: Terminals

Tab **TERMINALS** show a table containing all the most relevant data about terminals registered under the root level of the store without consider the presence of potential subresellers.

The screenshot displays the PAXITALIA web application interface. On the left is a vertical navigation bar with icons for home, menu, analytics, and chat. The main header shows the PAXITALIA logo and a user profile. Below the header, there are tabs for 'TERMINALS', 'APPS', and 'RESELLER', with 'TERMINALS' currently selected. A search bar contains the text 'rolex'. Below the search bar, a table lists terminal data. The table has columns for Terminal ID, Merchant Name, Serial, Model, Status, Paydroid, and Installed apps. There are 8 results shown. At the bottom left of the table area is an 'EXPORT' button, and at the bottom right is a search icon.

<input type="checkbox"/>	Terminal ID	Merchant Name	Serial	Model	Status	Paydroid	Installed apps
<input type="checkbox"/>	UX1CD876C	ROLEX MONTENAPOLONE	0820659218	A920	ONLINE	5.1.1 Aquarius	
<input type="checkbox"/>	SSOP8P0HF	LA CAPANNINA SRL	0820659218	A920	OFFLINE	5.1.1 Aquarius	
<input type="checkbox"/>	UGH57FGW	MONTRUCK USA	0820659218	A920	ONLINE	5.1.1 Aquarius	
<input type="checkbox"/>	45YTUIO3O	TIGOTA CORMANO	0820659218	A920	OFFLINE	5.1.1 Aquarius

RESELLER

Tab **RESELLER** show the subreseller found in the store and the ability to automatically filter the terminals according to this *groups*.

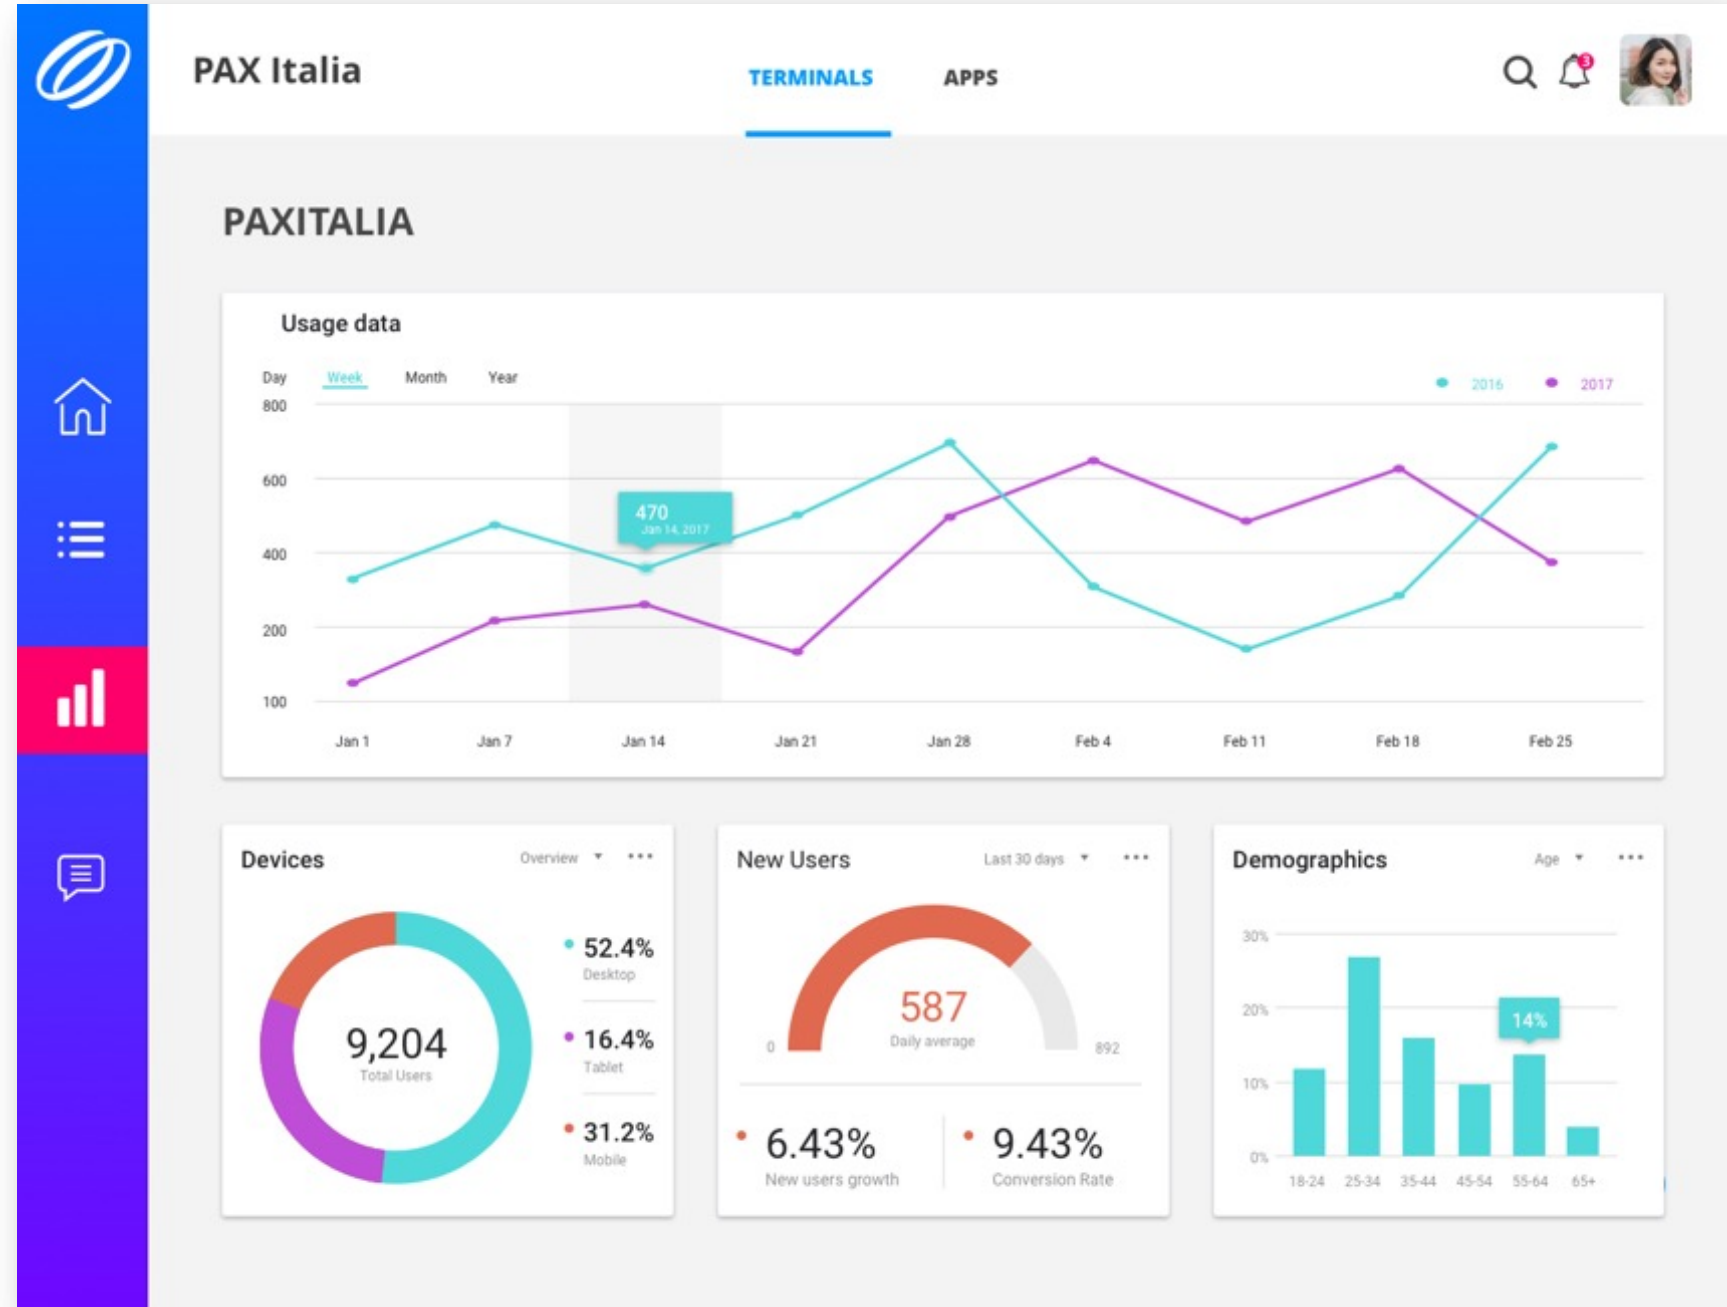

The screenshot displays the PAXITALIA RESELLER interface. At the top, there's a navigation bar with 'TERMINALS', 'APPS', and 'RESELLER' tabs. The 'RESELLER' tab is active. Below the tabs, a search bar shows 'Search results for: PAXITALIA' with a count of 3. A search input field contains 'paxitalia R&D'. To the right of the search bar are icons for a list and a filter. Below the search bar is a table with columns: Reseller, Administrator, Terminals, Creation date, and SubReseller. The table contains four rows of data. The first row is 'Paxitalia R&D' by 'Andrea Greco' with 6 terminals, created on '03-23-2017', and a 'VIEW ALL' link. The second row is 'Laboratorio' by 'Marco Trolli' with 6 terminals, created on '03-23-2017', and 'Paxitalia R&D' as the subreseller. The third and fourth rows are also 'Laboratorio' by 'Marco Trolli' with 6 terminals, created on '03-23-2017'. At the bottom left is an 'EXPORT' button, and at the bottom right is a magnifying glass icon.

<input type="checkbox"/>	Reseller	Administrator	Terminals	Creation date	SubReseller
